[Despatch Abstract.]

W. S. Scheme — Mangalore city — Execution sanctioned — Detailed plans and estimates for infiltration gallery and suction well Approved

W.S.&S. Schemes - Taking up of more schemes

Memo: No. 51167.H-1/48-2 P.H dy 20/7/48

The Govt desire that a larger programme of w.s.&d. schemes than has been provided for in the current year's budget should be taken up for execution. The C.E. for Irrigation (General Branch) is requested to state whether there are any schemes for which provision has not been made in the current year's budget both and which can be taken up for execution in the current year. If there are such schemes, the C.E. is requested to submit detailed proposals together with particulars re: the amount of grant or loan to be provided for the purpose the current year in each case.

2. If the C.E. considers that additional staff is necessary for the execution of the proposed new schemes, he may submit necessary proposals.

Letter No.3466-PWW/48-4 d/29-10-48.

Sir,

WATER SUPPLY AND DRAINAGE SCHEMES--TAKING UP OF MORE SCHEMES.
Ref:- Education and Public Health Memorandum No.51167-H1/48-2 P.H., dated 20-7-48 and Memorandum No.51167-H1/48-3, dated 8-9-1948.

***

81860

I forward herewith a list showing the water supply and Drainage Schemes which can be taken up for execution during the current year together with their present stage and also the amount that may be provided for the purpose in the current year. But the difficulties that may be encountered in ensuring that the proposed amounts are spent without lapses are detailed below.

2. There is hardly 3 or 4 months working time before the close of the financial year. In these days items like acquisition of land, securing cast iron pipes, etc. take a lot more time than ordinarily assumed. Many of them have to be done in the beds of rivers and hence any unexpected floods in those rivers will also influence progress. The schemes now suggested are also in several stages of preparation, sanction, etc. Keeping up to the chalked out programme will also be a factor in deciding the actual expenditure.

3. Still the proposal now suggested, if approved, will help to make a start this year so that a more rapid progress may be possible next year than would be the case if a start is to be made only next year.

4. On receipt of Government orders on the present reference, sanction for special staff which may be necessary will be applied for.

A Venkata Ramanan

for ~~Chief~~ Sanitary Engineer, P.W.D.(General)

Enc.- One List of Schemes.

ssc/2-11.

Serial No.	Name of Scheme.	Budget provision suggested by the Sany. Engr.	Budget provision suggested in this Office.	Present stage of the Scheme.	Remarks.
(1)	(2)	(3)	(4)	(5)	(6)
	I. Schemes for which plans and estimates have already been sanctioned by Government.				
	Cocanada Water Supply Improvements--Part II--Construction of new filter beds and improvements to existing filters	80,600	15,000	In G.O.204, P.H. d/22-1-48 sanctioning Part II Scheme it was ordered that construction of new filter beds costing Rs.1,61,200/- might be taken up immediately. This was technically sanctioned and sent to the Suptg. Engr. pp 17-18 of 48 (M)	
2.	Mangalore Water Supply Scheme - I Stage	50,000	5,000	G.O.777, P.H. d/12-3-48. Accorded sanction to the execution of a tentative length of infiltration gallery of 1020 ft. in advance of the preparation of plans and estimates and also the acquisition of lands. Necessary plans for land acquisition were sent to the Suptg. Engr. Plans for the infiltration gallery are under preparation in Sany. Engr.'s Office. pp 111-3 of 48 (P)	
	II. Schemes for which sanction of Government are awaited.				
1.	Avaniyapuram Water Supply Scheme.	CC	5,000	The Revised Estimate for Rs.1.77 lakhs for this work was submitted to Govt. in Chief Engineer's No.613, PWW/46-15 d/30-6-48. If Govt. orders are received and funds provided, this work can be started immediately.	
2.	Vizagapatam Swamp area Drainage arrangements		5,000	Administrative sanction of Govt. for Rs.3.665 lakhs was applied for in Chief Engr.'s No.2460-B/47-5 dated 8-5-48. If Govt. sanction this scheme, it can be taken up.	
3.	Tirupathi Drainage Scheme - VI Instalment.	..	2,000	The execution of this scheme is held up for want of Govt. sanction to the Revised Est. amounting to Rs.90,000/-. It is presumed that the Municipality has not yet come to an understanding on the question for finance. If this is settled, the work can be taken up immediately.	
			32,000		

(1)	(2)	(3)	(4)	(5)	(6)
	Trichy Water Supply Improvements--II Instalment of the II Year programme. Pump House and distribution system	..	5,000	Plans and estimates for 11,34,500 for this scheme have been sent to Govt. for sanction in Chief Engineer's No.3176-PWW/44-3, dated 23-9-47. If it is sanctioned in time the grant applied for may be spent.	
	III. Scheme for which plans and estimates are under fair copy in Sany. Engr.'s Office.				
	Cocanada Water Supply Improvements--Part III Distribution System.		10,000	The plans and estimates amounting to Rs.10,10,000/- have already been prepared and are now under fair copy. They will be sent to Govt. shortly. If sanction is accorded in time, the work can be taken up for execution this year. A tentative provision of Rs.10,000/- may be made in the Budget.	
	IV. Schemes for which plans and estimates are under preparation or revision.				
8.	Salur Water Supply Scheme		3,000	As directed in G.O.878, P.H., d/19-3-48 plans and estimates for the I Stage are under preparation in Sanitary Engr.'s Office. A sum of Rs.3,000/- can be expected to be spent this year if weather conditions permit to sink wells.	
9.	Chicacole Water Supply Scheme		5,000	In ~~G.O.~~ No. 1007-H1/47-13 dated 13-2-48 orders were issued not to proceed with the revision of plans and estimates till the question of grant is settled. Meanwhile the Sanitary Engineer had revised the plans and estimate for a higher population and they need Chief Engr.'s scrutiny. If Govt. now decide to sanction taking up the work, action will be taken to expedite its scrutiny and execution.	Items. Separate file.
10.	Virudhunagar Drainage Scheme.	50,000	Nil	This is scheduled to be taken up this year according to 5 year plan. The plans and estimates are being prepared by the Sany. Engr. The Municipality was advised to proceed with land acquisition required for the sewage farm meeting the entire cost from its own funds at the first instance. An expenditure of Rs.50,000/- may be expected on this scheme during the current year though Govt. share	

55,000

of

(1)	(2)	(3)	(4)	(5)	(6)
			55,000	of grant will be paid only after the scheme is taken up for execution.	
11.	Srivilliputtur Water Supply Scheme	1,00,000	2,000	This scheme is scheduled to be taken up this year and the Sanitary Engineer has promised to submit the plan and estimates next month. It will be difficult to push through with the work. But still a tentative provision of Rs.2,000/- may be made in the current year to start with.	
12.	V. Schemes for which plans and estimates are pending in Chief Engineer's Office.				
	Madura Storm Water Drain.	50,000	Nil	This scheme is estimated to cost Rs.2,27,000/- and it has been assigned the rank of 1(a) in the compendium as per orders of Govt. in G.O.2254,P.H. d/29-7-46. Plans and estimates will be submitted to Govt. shortly and the scheme can be taken up this year. As the question of grant has to be decided, there will be no expenditure to Government.	
13.	Palamcottah Water Supply Scheme	1,00,000	5,000	Detailed plans and estimates for this work in pencil stage have been received from the Sanitary Engineer. If Govt. order for taking up this scheme this year itself, the scrutiny of it will be expedited by appointing a special staff. A provision of Rs.5,000/- may be made in the current year's budget tentatively.

*****

I beg to state that from the records available, it is found that the Water and Drainage tax was in force in this municipality in the year 1907-08.

Information as to the exact date from which the Water and Drainage tax was first introduced in this municipality is not available. But it is also seen that in 1904-05 the tax was not levied.

Copy of Government Memorandum No.430 dated 10-5-1901 to the Chairman, Municipal Council, Vizagapatam.

From the Secretary to the Government of India, Public Works Department (Railway Traffic), Calcutta, No.191 R.T., dated 19th February 1901, making certain observations on the proposal for the imposition of a water and drainage tax of 4 per cent perannum on the value of the buildings and lands in the East Coast Railway at Waltair situated within the limits of the Vizagapatam Municipality.

The Chairman of the Municipal Council of Vizagapatam is requested to report at an early date the totals of the annual values (1) of all the buildings and lands in the Railway colony at Waltair, and (2) of the railway residential property comprised in it, which have been assessed under section 65 (1) of the Madras District Municipalities Act for the purpose of calculating the tax on buildings and lands.

- - -

A perusal of the old records on the subject shows that "Water Tax" at four percent on the annual rental value of the buildings situated within 150 yards of water tanks or hydrants was levied for the first time in this Municipality for a portion of the town during the year 1887-88 as per M.C.R.No.360 d/3-12-1887. The remaining portion of the town was exempted from this tax. In 1896, this tax was extended for the whole town as per G.O.No. Ms.1915.M. dated 20-11-1895. In the administration reports of subsequent years, this tax had been referred to as "Water and Drainage Tax".

NOTE:-

Submitted, 3643

As the faircopies sent to the chairman for signature used to be freely handled by none dismissed Municipal Manager and a removed clerk, whose assistance the chairman was taking to put up his forwerding remarks, and as he refused to sign the faircopies when i sent them through the office Manager, I was compelled to submit the faircopies to the Government and other heads of departments direct, for some time past, with the note to the above effect. The Secretary to Government, Local Administration Department in his Demi Official Letter No.50010-F 48, dated 6th January 1949, was pleased to instruct me to submit the fair copies through the Chairman, only and to allow them to be retained with him, if he liked, to be sent later with his remarks. I accordingly sent the enclosed letter addressed to the Government to the Chairman through one of the clerks with instructions to leave the fair copy at his residence if the Chairman wanted to retain it to be sent later. But the Chairman, it appears, flatly refused to sign the fair copy stating that as fair copies, of late, used to be submitted direct to the Government and heads of Departments, this also may be sent direct and that he was not prepared to sign it. Under the above circumstances, I am submitting the fair copy direct.

225

X X X X X

403. Commissioner's note requesting to levey water and drainage tax with effect from 1--4--1939 at 2 3/4% per half year on annual rental value of buildings in the town, excluding the buildings in Balaga, Arasavilli, Kothapeta and Badullapeta and to declare that 2 1/4 % of the said tax is to be levied in respect of water works and the remaining ½% in respect of drainage works.

Resolution:-

The Council resolves to levy water and drainage tax with effect from 1--4--1939 at 2 3/4 % half-yearly on the annual rental value of buildings in the Municipality excepting Balaga, Arasavill , Badullapeta, and Kothapeta to introduce watersupply and drainage schemes in the Municipality excluding the said portions and to apportion the tax at 2 1/4 % halfyearly for water works and ½ half yearly for drainage works.

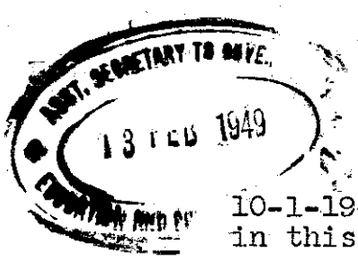
Roc.No.A-1-617/1949. Dated 11th February 1949.

Sir,

Sub:- Water Supply and Drainage Tax - Period of levy - Submitted.

- - -

Ref:- Government Memo. No. 51167-H1/48-13, P.H., dated 5-2-1949 (received today).



Government Memorandum No. 51167-H1/48-7 dated 10-1-1949 referred to in the above memorandum was not received in this office.

2. The Mettupalayam Municipality was constituted from 1-10-1948 in the place of the Mettupalayam Panchayat Board. The Municipality is levying Water and Drainage Tax with effect from 1-10-1948 at the following rates:

(i) On buildings and on lands occupied by and appurtenant to buildings: 2-13/16 % of the annual value per half year.

(ii) On lands not used exclusively for agricultural purposes and not occupied by, or adjacent to buildings: 27/160% of the capital value per half year.

(iii) On lands exclusively used for agricultural purposes: Nil.

Note: The Council has resolved that 90% of the Water and Drainage Tax referred to above be devoted to Water Works and the reminder to Drainage Works.

3. The defunct Mettupalayam Panchayat Board was levying water tax on buildings only under Rule 19-A of Schedule IV of the Madras Local Boards Act since 1929-30. The rate at which the tax was levied by the Panchayat Board was at 2-1/2% of the annual value of buildings per half year.

4. As the original Government Memorandum on the subject was not received in this office, I request that, in case any further information is required, a copy of the original reference may please be forwarded to me so that I may send all the required particulars.

....

A perusal of the old records on the subject shows that "Water Tax" at four per cent on the annual rental value of the buildings situated within 150 yards of water tanks or hydrants was levied for the first time in this Municipality for a portion of the town during the year 1887-88 as per M.C.R.No.360 d/3-12-1887 The remaining portion of the town was exempted from this tax. In 1896 this tax was extended for the whole town as per G.O.No. Mis.1915 M dated 20-11-1895. In the administration reports of subsequent years, this tax had been referred to as "Water and Drainage Tax".

W. S. and D. Schemes – Municipalities – Priority list

Dear Mr. Rajagopalan,

It has been suggested that a plan should be drawn up to implement the priority list for Municipal W. S. and D. Schemes drawn up by the W. S. and D. Committee. I am to ask you to furnish a draft plan (~~sixth~~ in six copies) for being discussed at the Conference on Urban W. S. and D. to be held at the Secretariat on 26-2-1969. If necessary, you may discuss the matter with me before a draft plan is drawn up.

Yours sincerely

7. Anantapur District Gazette Extra-ordinary Supplement Dated 30—6—1948
8. Resolution 42, 43 and 44 Dated 31—7—1948

Resolution No. 42

In persuance of the Government orders cited above and in excercise of the powers conferred by Section 78 of the Madras District Municipalities Act 1920 as ammended up to date and in persuance of the resolution No. 42 in exercise of the powers vested under section 368 (3) of the said Act and under section 80 of the Madras District Municipalities Act, the following rates of property tax will be levied from 1-10-48.

Undersection 81 (1) of the Madras District Municipalities Act 1920 as amended from time to time up to date the following rates of property tax will be levied on the annual value of the buildings and lands or both within the Municipal limits with effect from 1-10-1948.

Tax for the general purposes	5% per half year on the annual value.
Water and drainage tax	2. 5% per half year on the annual value.
Scavenging tax	1. 75% per half year on the annual value.
Lighting tax	1. 75% per half year on the annual value.

N. B-1. Education Tax, shall be levied as surcharge at 4 6/11% of the property tax on all properties under section 34 and 35 of the Madras Elementary Education Act.

Buildings the annual value of which is less than rupees six will be exempted from property tax, under section 83 (5) (1) provided the proprietor of such a property does not own any other building or

land assessed to the property tax and is not liable to profession tax or income tax (vide 83 (5) (ii)

Under section 81 (3) of the Madras District Municipalites Act 1920 as amended up to date the following rates of property tax will be levied on all non-agricultural lands which are vacant and are not occupied by or adjacent and appurtenant to buildings from 1-10-48 on half yearly basis.

	Rate per every 320 sq. yds. or part thereof.
I. Sites abutting or within 120 yards distance on either side of Guntakal Uravakonda Road starting from Goods shed and terminating at the Ginning factory (south) of Sri. Ramasubbiah Chetty	Rs. 2-0-0
II. (a) Sites abuting or within a distance of 120 yards on either side of Thimmancherla Station Road starting from main Road (i.e. Guntakal Uravakonda Road) and teriminating at the junction of Thimmancherla and Gooty roads.	Rs. 1-0-0
(b) Sites abuting or within a distance of 120 yards on either side of Dharmavaram Gate Road starting from main Road (i. e. Guntakal and Uravakonda Road) and terminating at the Travellor's Bungallow.	1-0-0
(c) All vacant sites in Hampiah peta and Modina Bad.	1-0-0
III. (a) All vacant sides in Bench Kottala and Porters Line (b) All vacant sites in Satyanarayanapeta.	0-8-0
IV. All other vacant sites which or not included in items, I,II,III,	0-4-0

N B:—The above rates are inclusive of property tak for General Purposes, water and Drainage, scavenging and lighting in the proportion of 5 : 2 1/2 : 1 ¾ : 1¾.

Under section 81 (2) of the Madras District Municipalities Act 1920 as ammended up to date a half yearly tax at 6 % of the annual value on all agricultural lands within Municipality will be levied with effect from 1—10—1948.

N. B:—This 6% includes tax for general purposes, scavenging and lighting. Agricultural lands excluded from water and drainage taxes.

Where it is levied 80% of the water and drainage tax will be utitised for water purposes and 20% for the Drainage purposes.

Resolution No. 43

PROFESSION TAX.

Resolved to levy a half yearly profession tax on all persons and companies liable under section 93 of the Madras District Municipalities Act 1920 as amended up-to-date with effect from 1-8-48.

======

The levy of Water and Drainage Tax independantly was provided in the District Municipalities Act of 1884 and their tax was levied in this Municipality for the first time in the year 1899-1900 In section 81 of the Madras District Municipalities Act V of 1920 this water and drainage tax was treated as a component part of property tax and it was accordingly included in the Property tax. According to the amended Act X of 1930 (vide section 81 (1)), a proportion of this tax is levied in respect of water works and the remainder in respect of drainage works.

This was handed over to me by Mr. U.C. Rais, -L.A., Chairman, Municipal Council, Mangalore. What is holding up the work re: Mangalore water-supply scheme? Please put up. 17/3/49 M(P.H.)

Madras,
17th March 1949.

Dear ~~Sir~~, Mr. S.L.G,

I desire to bring to your notice the unenviable position in which I have been placed as Chairman of the Mangalore Municipality consequent on the delay of Government to sanction the water supply and drainage schemes for Mangalore. The tax payers are dissatisfied that after the tax for water-supply and drainage has been collected from them for nearly 8 years, no steps have been taken so far to implement the schemes on account of which the tax was levied. They also seem to be aware that this is in spite of the fact that the Water-supply and Drainage Committee gave the first place to Mangalore in the list of priority.

The increase in the prevalence of Filaria which has probably reached a record figure in the province and the increase in Malaria and Typhoid has added a note of urgency to the popular demand which cannot be rejected any longer. The Municipal Council is therefore prepared to use the amount of 2 lakhs for water supply, at its disposal, immediately for implementing the scheme. They desire therefore that Government may approve the estimates at once so that appropriate work may be commenced before the monsoons.

I trust that Government will help me and the Municipality to this extent.

Yours sincerely,

Hari

To

Hon'ble Sri A.B. Shetty,
Minister for Public Health,

pp111-3 of 9(P)

On Go No. 777 P.H. dt 12.3.48, the Govt. sanctioned the preparation of plans and estimates for the Mangalore Municipal W.S. scheme. In the same G.O., the Govt. approved the proposal of the C.E. to take up the construction of infiltration gallery for a length of 1020 feet in advance of the preparation of the plans and estimates. In connection the financial position of the Md was examined and it was seen that the Md would be able to finance the scheme estimated to cost Rs 48.41 lakhs to instal, on the usual half-grant half-loan basis if the rate of w. and d. tax levied in the Mety., was raised from two p.c p.a to

do

p112 of 9(P)

eleven p.c.p.a. The C. has agreed to increase the tax accordingly. The C.E. had since submitted detailed plans and estimates for the work of infiltration gallery and suction well which form the first stage of the W.S. Scheme. The plans and estimates have been referred to the M.C., Mangalore, for its views. After obtaining the C's concurrence, the plans and estimates will be sanctioned.

¶ 112 of (P) 1947

Separate file

The incidence of typhoid fever in Mangalore is very high. The town has become an endemic centre for filariasis also. The W.S. and S. Committee have recommended that Mangalore might be assigned the first place in the list of municipal W.S. Schemes to be newly provided in the Southern circle. The question was also considered at a conference of HM (PH), the C.E., the D.P.H., the Sanit. Engineer and the J.S. (P.H.). The Conference suggested inter alia that the Mangalore M.W.S. scheme should be taken up immediately.

¶ 18 of

¶ 42 of report (not found up)

Recently, the C.E. suggested that a grant of Rs. 5,000 might be provided in 1948-49 for this work. Finance agreed to this; but they suggested that as the proposal would commit Govt. to a half grant and half-loan for the whole scheme, the matter should be placed before the S.F.C. and the Cabinet. When the file was circulated, HM (PH) minuted that the grant might be provided by observing the procedure indicated for very emergent cases of New Schemes. HM (Fin) agreed to this suggestion. HBr has since ordered that the matter might be placed before the

Note for the Cabinet

Sub: Grant and Loan - Mangalore Municipality - W.S. Scheme.

—o—

On March 1948, the Govt. sanctioned the preparation of plans and estimates for the Mangalore Municipal W.S. Scheme. At the same time, the Govt. approved the proposal of the C.E. to take up the construction of infiltration gallery for a length of 1020 feet in advance of the preparation of plans and estimates. In that connection, the financial position of the dt. was examined and it was seen that the dt. would be able to finance the scheme estimated to cost Rs. 48.41 lakhs to instal, on the usual half-grant half-loan basis, if the rate of w. and d. tax levied in the city, was raised from two p.c.p.a to eleven p.c.p.a. The Council has raised agreed to increase the tax accordingly. The C.E. has since submitted plans and estimates for the work of infiltration gallery and suction well which form part of the first stage of the W.S. scheme. The Dt. Dr, Mangalore, has accepted the plans and estimates.

The incidence of typhoid fever in Mangalore is very high. The town has become an endemic centre for filariasis also. The W.S. and S. Committee has recommended that Mangalore ought be assigned the first place in the list of municipal W.S. schemes to be newly provided in the Southern circle.

Recently, the C.E. suggested that a grant of Rs 5.00 might be provided in 1948-49 for this work. In that connection, the Fin. dept.

suggested that as the proposal would ~~have~~ commit Govt to a half-grant and half-loans for the whole Scheme, the matter should be placed before the S.F.C. and the Cabinet. When the file was circulated H.M (P.H) minuted that the grant might be provided by observing the procedure indicated for very emergent cases of new schemes. H.M (Fin) agreed to this suggestion. The late Hon however, ordered that the matter might be placed before the S.F.C

The question has since been considered by the S.F.C and the Committee has also approved the proposal to sanction the execution of the Mangalore Ul w.s. scheme.

The matter is now submitted to the Cabinet. The point for orders is whether the execution of the Mangalore Ul-w.s. scheme may be sanctioned, the Govt. committing themselves to a half-grant of Rs. 24·205 lakhs and a loan of a similar amount.

NOTE FOR THE CABINET.

SUB: Grant and Loan - Mangalore Municipality - Water Supply Scheme.

In March 1948, the Government sanctioned the preparation of plans and estimates for the Mangalore Municipal Water Supply Scheme. At the same time, the Government approved the proposal of the Chief Engineer to take up the construction of infiltration gallery for a length of 1020 feet in advance of the preparation of plans and estimates. In that connection, the financial position of the council was examined and it was seen that the council would be able to finance the scheme estimated to cost Rs.48.41 lakhs to instal, on the usual half-grant half-loan basis, if the rate of water and drainage tax levidd in the municipality was raised from two per cent per annum to eleven per cent per annum. The Council has agreed to increase the tax accordingly. The Chief Engineer has since submitted plans and estimates for the work of infiltration gallery and suction well which form the first stage of the water-supply scheme. The Municipal Council, Mangalore, has accepted the plans and estimates.

The incidence of typhoid fever in Mangalore, is very high. The town had become an endemic centre for filariasis also. The Water-Supply and Drainage Committee has recommended that Mangalore might be assigned the first place in the list of municipal water supply schemes to be newly provided in the southern circle.

Recently, the Chief Engineer suggested that a grant of Rs.5,000/- might be provided in 1948-49, for this work. In that connection, the Finance Department suggested that as the proposal would commit Government to a half-grant and half-loan for the whole scheme, the matter should be placed before the Standing Finance Committee and the Cabinet. When the file was circulated, the Hon'ble Minister (Public Health) minuted that the grant might be provided by observing the procedure indicated for very emergent cases of new schemes. The Hon'ble Minister (Finance) agreed to this suggestion. The late Hon'ble Premier however, ordered that the matter might be placed before the Standing Finance Committee.

The question has since been considered by the Standing Finance Committee and the Committee has also approved the proposal to sanction the execution of the Mangalore Municipal Water Supply Scheme.

The matter is now submitted to the Cabinet. The point for orders is whether the execution of the Mangglore Municipal Water Supply Scheme may be

Letter No. 2251-P[illegible]/46-27 dated 5th March 1949.

Sir,

Water supply---Mangalore Municipality--Detailed plans and estimates for infiltration gallery and suction well.

Ref:- G.O.Ms.No.777, Public Health, dated 12-3-1948.

I forward herewith detailed plans and estimates amounting to Rs.3,15,000 together with a report for the above work which forms the first stage of execution of the composite water supply scheme to serve the Mangalore Municipality and adjacent villages. The Government have approved the proposal for the execution of the infiltration gallery only for a length of 1000 ft. This estimate however includes the construction of suction well and the laying of the connecting pipe as it is expedient and economical to carry out these works along with the gallery. The economy and necessity for these works arises from the fact that piling, shoring and pumping operations are features common to the gallery as well as to the connecting pipe. A note containing my remarks is also appended.

Early sanction may be accorded so that the work may be taken up during the summer of 1949.

for Chief Engineer, P.W.D.(General).

Enc.-
Plan San.Nos.55,56 & 27/48 Report,
Abstract and detailed estimate.
Note by the CE.
ssc, 5-3.

C.E's Note on the first stage of Mangalore Water Supply Scheme.

1) Infiltration gallery. The length of gallery has been tentatively fixed. The exact length has to be determined after the yield test has been conducted. The quality of water should also be tested to determine the exact method of treatment to be adopted.

2) Suction Well. The suction well is proposed to be built over hard rock. During execution, it should be examined whether any lining is necessary for the rocky sides of the suction well. If hard granite rock is not met with, it is desirable that the well steining of brickwork in cement mortar or cement sand ~~blocks~~ blocks is taken down to the bottom i.e. to minus 16.50 instead of leaving it at minus 5.00

Report to Accompany the Detailed Plans & Estimates for the Mangalore Water Supply Scheme- 1st Stage-

Amount of Estimate. Rs. ~~3,40,000/-~~ 3,15,000

Plan San.Nos.27,55 & 56/1948.

Prefatory.-

The question of providing protected water supply to Mangalore was mooted as early as 1896. Since 1907 several sources in the vicinity of the town such as Amigady, Mahattri hills, Kajal and Ahare springs, Alape tank, Railway valley, Kudri hills, Jeppu and Magar, Netravati River were considered but found not feasible for a growing town like Mangalore. In G.O. No. 1162 M. d/7-7-1917 the investigation of the Hassanmar Valley as a source of water supply was sanctioned and in 1921 this investigation was completed except for detailed investigation of the line of gravitation main and distribution system in the town. The scheme was expected to supply ordinarily 6 gals.per head per day for a population of 60,000 with the possibility of increasing the rate of supply to 10 gals. with infiltration gallaries etc. In 1928, the scheme was estimated to cost Rs.8 lakhs to instal and Rs.4,500/- to maintain. The municipality, however, would not accept the scheme on the ground that the limited supply would not meet the growing demands of the town.

No progress was made in the next ten years.In 1939 the Sanitary Engineer reported that Hassanmar valley scheme which was then estimated to cost Rs.9 lakhs to instal and Rs.4500/- to maintain was to be one of the sources to be supplemented from the Ghurpur river source. The cost of the supplemental scheme was to be Rs.5 lakhs to instal and Rs.19500/- to maintain. The Government agreeing with the recommendations of the Sanitary Engineer, ordered in G.O. No.Ms. 2954 P.H. d/5-7-1940 the investigation of (1) the alignment of the gravitation main for Hassanmar valley source and (2) the Ghurpur river source. This investigation was taken up in 1945 and the investigation report submitted in 1946. This report recommended that the Hassanmar valley source need not be considered any further and suggested that the Ghurpur river source alone need be developed for a supply. Three alternatives however were put forward viz. (i) protected water supply to the Mangalore municipality alone, at 15 gals.per head per day, from the Ghurpur river source; (ii) A composite scheme with Ghurpur river source to serve the municipality as well as the villages in the vicinity and along the route of the pumping main and (iii) A scheme utilising the Hassanmar valley source in addition to the Ghurpur river source. The Sanitary Engineer recommended alternative No.(ii) for adoption and the Chief Engineer agreed in this. Thereupon Govt. in G.O. No. Ms. 777 P.H. d/12-3-1948 sanctioned the preparation of detailed plans & estimates for the composite water supply scheme and also approved the proposal of the Chief Engineer to take up the construction of infiltration gallery for a length of 1020 ft. in advance of the preparation of detailed plans & estimates. Accordingly detailed plans & estimates for the 1st stage of the scheme are now prepared and submitted. As it will be more economical to take up the execution of the suction well and the connecting pipe along with the gallery work, these two items are also now included in the 1st stage of the scheme.

Scope of the Scheme.

The scheme provides for an ultimate population of 1,75,000 in 1981 for Mangalore town and 35,000 for the villages en route. The rate of supply will respectively be 20 gals/h/d. and 5 g/h/d.

Detailed description of the Scheme.

Infiltration Gallery.

Plans San.Nos. 55 & 56/1948 show the details of alignment and section of infiltration gallery and wells. The gallery 1020 ft. long will run between boring No.5 and boring No.19, and will consist of two rows of 15" S.W.pipes laid with open joints and to the standard section. The S.W.L. being + 1.4 the invert level of the gallery pipes has been fixed at -12.0 and will on an average be about 18 ft. below the bed of the river. The gallery as aligned will lie in sand and pebble layers and may be expect/ to give a satisfactory yield.

The infiltration well at the farther end, the two intermediate M.H. wells and the collecting well will all be of 12'-0" diameter and all of them will be sunk wells. The infiltration well will be sunk to -18.5 while the two M.H. wells will be taken down to - 17.0. The collection well will stop at - 16.00 as rock is likely to be met at that level.

The bottom 2'-6" of the infiltration well and M.H. wells will be plugged with coarse sand while the bottom of the collection well will be plugged with cement concrete 1:2:4 mix 2 ft. thick. The top level of these wells will be about 5 ft. above the bed level of the river at these places. The staining of these wells will be of 1'-6" thick brick work in cement mortar (1:5) and plastered with cement mortar 1/2" thick on both sides. A R.C.C. ladder will be fixed to the staining in each well for access inside. A watertight manhole cover 2'-6"x 2'-0" will be provided in the cover slab of each well, as also an air escape arrangement to approved type design.

Connecting Pipe.

A 21" C.I. pipe line 425 ft. long will be laid connecting the collecting well to the suction well on the right bank of the river Ghurpur. The invert of the horizontal limb of the connecting pipe will be -12.00 at the collecting well and -13.00 at the suction well giving a gentle fall of 1.00 over a length of 425 ft. The mouth of the vertical limb inside the collecting well will be at -14.00. A control sluice valve will be located just by the side of the suction well in a separate chamber built up for its provision.

Suction Well.

The suction well also will be 12'-0" in diameter and will be about 180-200 ft. from the river margin. The ground level at the site is + 18.70. The bottom of the suction well will be taken to -16.00 which would entail cutting into rock about 12 ft. as judged from the boring results. The masonry staining 1'-6" thick will be built over hard rock.

The ordinary flood level is reported to be 21.80 and the H.F.L. 27.80. The top of the roof slab for the well is therefore fixed at 30.00. This point may however be examined and decided during the actual execution of the work. In the suction well will be provided an intermediate R.C.C. platform an R.C.C. access ladder, and a watertight manhole frame and cover.

The Estimate.

The works now proposed to be taken up as the first stage are estimated to cost Rs.3.15 lakhs as per detailed estimate and abstract costs appended.

The rates for pipes and specials etc. are as per the latest quotations obtained from firms in the line, while the rates for local works are based on the current P.W.D. schedule of rates.

G.O. (Ms) 1798 P.H. d/ 16.5.49

On March 1948, the Govt. sanctioned the preparation of plans and estimates for the Mangalore Municipal W.S. Scheme. At the same time, the Govt. approved the proposal of the chief Engineer to take up the construction of infiltration gallery to a length of 1020 feet in advance of the preparation of plans and estimates. In that connection, the financial position of the Mc. was examined and it was seen that the Council would be able to finance the scheme estimated to cost Rs. 48.41 lakhs ~~to cost Rs.~~, (Rupees forty eight ~~lakhs~~ forty one thousand only) to instal, on the usual half-grant half-loan basis, if the rate of water and drainage tax levied in the Municipality, was raised from two per cent per annum to eleven per cent per annum. The council has agreed to do increase the tax accordingly.

The Chief Engineer has since submitted plans and estimates amounting to Rs. 3,15,000 (Rupees three lakhs, fifteen thousand only), for the work of infiltration gallery and suction well which form ~~part of~~ the first stage of the Ml W.S. Scheme. The Ml. Mc. Mangalore, which was

consulted, has accepted the plans and estimates. In the circumstances, the Govt sanction the plans and estimates amounting to Rs 3,15,000 submitted by the C.E. for the ~~work referred to~~ above first stage of the water supply scheme.

The Govt also sanction the execution of the Mangalore Ml. w. s. scheme on the half-grant half-loan basis. The work will be executed by the P.W.D. The C.E. is requested to include necessary provision for grant for the Mangalore Ml. w. s. scheme in the R.E. for 1949-50 while submitting the Part I estimates for 1950-51.

The Commr., Mangalore Mcty. is requested to apply through the C.E. for loan to meet the Council's share of the cost of the scheme, when the need for the loan arises.

50-Civil works	g. grants-in-aid	(ii) Postwar reconstruction-G. grants to local bodies for w.s. and d. schemes executed by the P.W.D.	..	Rs 100/-

Explanatory Note:

Mangalore is assigned the first place in the list of Municipal water-supply schemes to be newly provided in the Southern circle, drawn up by the Water-supply and Drainage Committee. In May 1949, the Govt. sanctioned the execution of the Mangalore M. W.S. Scheme on the half-grant half-loan basis.

2. The scheme is estimated to cost Rs. 48: 41 lakhs to instal. The M.C. is eligible for a half-grant (i.e. Rs. 24·205 lakhs), towards the cost of execution of the scheme. The other half of the cost will be met by the M.C. by taking a loan from the Govt. to the necessary extent. No provision has been made in the B.E. for 1949-50 for meeting this expenditure

3. As the expenditure is on a "New

Service' a token ~~supplementary~~ appropriation of Rs. 100/- is included in the supplementary estimate. The balance will be met from savings within the grant, if available, or by obtaining a further supplementary grant ~~in March 1950~~.

CHENNAI

p1 ante Recently, HM (P.H) minuted that a larger programme of w.s. and d. schemes than what has been provided in the current year's budget should be undertaken. Accordingly, the C.E. was asked to submit proposals p1 c/f in the matter. The C.E. was also asked to submit p2 c/f necessary proposals for additional staff, if requisd. The C.E's reply in the matter is at p.13 c/f. The CE has recommended the provision of a grant amounting p17 c/f to Rs. 62,000 in respect of 13 schemes. As regards the additional staff, the CE has stated that sanction para 4 on p13 c/f for it would be applied for after orders of Govt are passed on his proposals for provision of grant.

For the reasons stated in the Sectional notes below, it is not possible to consider the CE's proposal for provision of grant except in the case of the Mangalore Ml. w. s. schem

Mangalore Ml. w. s scheme. In p111-3 c/f (P) Gr. No. 777 P.H., d/12.3.48, the Govt. have sanctioned the preparation of plans and estimates for the Mangalore Ml. w. s. Scheme. In the same Gr., the Govt have p112 c/f (P) approved the proposal of the CE. to take up the construction of infiltration gallery for a length of 1020 feet in advance of the preparation of the plans and estimates for the scheme.

It is submitted in this connection that while before the issue of the Gr mentioned above p112 c/f (P) the ability of the d. to finance the scheme (estimate to cost Rs. 48.41 lakhs to instal), was examined; it was seen that the d. would be able to finance the scheme on the usual half-grant basis, if it raised the w. and d. tax from two p.e.p.a to eleven p.e.p.a. to the d. has agreed to increase the tax accordingly.

The C.E. had suggested that a grant of p15 c/f Rs. 5000 may be provided in the current year. This dept suggested that the CE's recommendations

p.2 c/f

may be accepted. The Finance dept have agreed to this. But, as the proposal to provide a grant would commit Govt to the payment of a half-grant in respect of the whole scheme costing ~~Rs~~ Rs. 48·41 lakhs, Finance have stated that the proposal would have to be treated as a "New Service" and the matter placed before the Standing Finance Committee and the Cabinet and that a supplementary grant would have also to be obtained from the legislature in due course. p 4 of Sectional Notes do do

The file may be circulated to HM (PH) and HM (Fin) for orders whether the proposal to provide a grant of Rs. 5,000 in the current year for the Mangalore Fl. w.s. scheme may be placed before the Standing Finance Committee.

C.P.R

112

Please see the minutes of H. Pr at p. 7 ante.

The local bodies for which grants have been provided for water-supply and drainage schemes in the current year, are mentioned in the appendix to Go. No. 1546 P.H., dy 11-5-48. The local bodies for which grants have been provided in the R.E. for 1948-49, are mentioned at pp 1-5 of (E). The Municipal local bodies referred to therein include those where schemes are already under execution for some time past and those where schemes have been taken up for the first time in the current year and excludes the case of Municipalities which are executing schemes at their cost in the first instance. (O)

First Sentence of H. Pr's minutes on p 7 ante

It is presumed that H. Pr desires to have information re: local bodies where water-supply or drainage schemes or improvements schemes have been taken up for the first time in the current year and for which Govt are committed to a grant; they are as follows:—

1) Karaikudi water-supply scheme (improvements)
2) Coimbatore " " (do)
3) Kurnool " " (do)
4) Kumbakonam " " (do).
5) Guntakal water-supply scheme
6) Chingleput " " (improvements)
7) Nagapattinam " " (do).
8) Bellary " " (do)
9) Vizagapatam drainage scheme.

Question of providing grants for this scheme is a separate consideration

In the case of the other local bodies referred to at (O) and (E), the execution of w.s. and d. schemes or improvements scheme as the case may be, has been in progress for some time past.

Second Sentence of H. Pr's minute on p 7 ante.

Before a water-supply or drainage scheme is ready for execution, the following procedure has to be adopted:—

The Sanitary Engineer submits through the C.E. proposals for the investigation of a water-supply scheme for each local body in the turn allotted to it in the compendium of the provincial requirements of water-supply and drainage. On receipt of such proposals, the Govt ask the local body to state whether it is willing to meet the cost of the investigation. After receipt of a resolution from the ~~boo~~ local body agreeing to meet the cost of investigation, the Govt. sanction the investigation of the scheme, (the entire cost of investigation being met by the local body). After investigation is over, the Sanitary Engineer submits to Govt through the C.E, the investigation report with details regarding capital cost and the cost of maintenance. The Investigation Report is referred to the local body for its views. On receipt of its reply, the financial position of the local body is examined in consultation with L.A., and if the local body is found able to finance the scheme and also willing to raise the tax to the necessary extent, the Govt. sanction the preparation of the detailed plans and estimates. The detailed plans and estimates are prepared by the Sanitary Engineer and submitted to Govt through the C.E. As usually due to increase in cost of materials, labour etc, the estimates would have increased considerably, it is necessary to examine the financial position of the local body again. If the local body is willing to raise the tax to the necessary extent, the detailed plans and estimates are sanctioned. The scheme is then ready for execution. Even after this, the question of providing the Govt's share of the cost of the scheme (usually half the cost of installation) has to be considered - generally as a Part II scheme. Apart from these, the progress

execution is delayed due to the dearth of necessary plants, pumping materials and skilled staff.

Third and fourth sentences of H.Dr's minutes on p. 7 ante. In 1944, the Govt decided that the priority lists in the existing form should be abolished and that a revised priority list should be prepared under the following three heads: — P'on p. 1 (X)

(a) Schemes under execution;
(b) Schemes sanctioned by Govt; and
(c) Schemes for which plans and estimates were ready, but for which sanction was awaited.

Besides, in order that work may be taken up thereafter for investigation for preparation of plans and estimates, for sanction of estimates or for execution, in a regular order determined by their relative importance from the point of view of the public health of the province as a whole, and in order that works selected may go in orderly progression from stage to stage, it was ordered that apart from the priority list referred to above, separate lists — one for w.s. scheme and the other for drainage, to be called compendium should be prepared to show the remaining requirements for the whole province, to be taken in an order of priority determined solely by the considerations from the point of view of Public Health. The C.E. was asked to prepare in consultation with the D.P.H., a revised priority list and the compendium of the provincial requirements. On the report submitted by the C.E., the Cuddalore w.s. improvements scheme was assigned the 12th place in the Compendium of the Provincial requirements of water-supply. Cuddalore was not included in the priority list, presumably

M'on p. 1 (X)

do

(applicable in respect of water supply and drainage respectively)

R'on p. 1 (X)

p. 2 (X)

p 19 (X)

because plans and estimates were not ready for the Scheme. The ~~list~~ priority list and compendium were accepted by the Public Health Board and approved by Govt.

Ups 227 of 24(1.w)

pp 18-19 of 1947 (a)

Removed to another file

Subsequently, in 1947, with reference to certain representations received in the matter, the Cuddalore W.S improvements scheme was ~~assigned~~ raised to the 6th place in the compendium of the provincial requirements of W.S.

p 42-43 of report

The Water-Supply and Drainage Committee which was appointed in 1947 to go into the whole question of W.S. and D. in the province, has drawn up a priority list ~~of~~ for municipal water supply and drainage schemes. For purposes of priority, the Committee has

p 41 of report

divided the province into two circles — southern and northern. There are two lists — one for W.S and the other for drainage in each circle. The

p 42 of report

municipalities in each circle have been grouped under the following categories:

p 42 of report

(i) Schemes to be newly provided;
(ii) Existing schemes to be improved;
(iii) Schemes now under execution; and
(iv) Existing schemes not requiring improvements

p 42 of report

do

The Committee has assigned Mangalore the first place under category (i) above and Cuddalore the first place under category (ii) above.

Separate file

It is proposed to accept the recommendation of the W.S & D. Committee re: assignment of priority for municipal water-supply and drainage schemes. Format orders in the file & connected file have been issued pending receipt of proposals from ~~re~~ re: assignment of priority for newly constd municipalities. The C.E's proposals

matter has been received. The file on the subject has been sent to L.A. Orders in the matter are expected to be issued shortly. After issue of orders approving the recommendations of the Committee, Addalore W.S. improvements scheme will be the first to be taken among the existing W.S. schemes in the southern circle, to be improved.

Last Sentence of H+R's minute on p7 ante.
There is no information re: the dates from which various municipalities are collecting W. and d. tax. This information will have to be called for from the municipalities. For orders whether this may be done. If so, the draft memo submitted below may be approved.

The file may be circulated to H+R through H.N. (P.H)

p21 of

A priority list and a compendium of the provincial requirements of w. s. and d. were drawn up in Go. No. 555 P.H., dy 7-1-46. The places in the list and the compendium were arranged in an order of priority taking into consideration their relative importance from the Public Health point of view of the province taken as a whole. Subsequently, it was found that a revision should be made of the lists. The Public Health Board to which the question was referred has in turn referred to the recommendations made by the Water-Supply and Drainage Committee.

M'an p19 (X)

(X)

p9 para 9 of

do

The Water-Supply and Drainage Committee have recommended a list of priority for municipalities dividing the province into two circles — Southern and Northern. Among each of these circles, the Committee have arranged the municipalities, with due regard to the relative needs as between place and place, based on the intensity of water-borne epidemics, endemicity, partial and total scarcity, the industrial, commercial and religious importance of the place, the incidence of malaria, filariasis and mosquito nuisance and so on. The Committee have also suggested to Govt not to reopen the order of priority drawn up by them as that would lead to delays and dissensions. In the connected file, HM (PH) and HM (CA) have ordered that the list drawn up by the Committee might be accepted and the list should not be deviated on representations made by the local authorities.

para 69 on p41 of report (not put up)

[Replies from Municipal Commissioners]

Replies to the memoranda (Public) from all the Commissioners
except those of the following municipalities have
been received

1) Tirunelveli 2) Villupuram 3) Udipi.
4) Guntakal 5) Guntur 6) Kakinada
7) Tirupati 8) Proddatur 9) Rajahmundry.

A priority list of water-supply schemes
prepared with reference to the year of the first levy
of water and drainage tax is put up at (RR). This
statement shows all the Municipalities under the
following categories

List I. Schemes to be newly provided.
List II. Schemes under execution
List III. Municipalities where there are
already water-supply schemes
but which will have to be improved.

Each list is again divided into two categories
further - Municipalities in Southern circle
and municipalities in the northern circle.
The priority list prepared by the W. S. & D.

Committee and which has been approved by H.M. (P.H) and H.M. (L.A) is at (AA).

(AA)

The points for orders are:—

(i) Whether the priority list as drawn up by the W.S. & D. Committee will be approved; or whether the priority for water-supply and drainage schemes will be fixed with reference to the date of levy of tax [After this is in this connection invited to the noted on pp 13-14 above]

(ii) Whether provision may be made for a grant of Rs. 5,000 for the Mangalore W.S. Scheme as recommended by the C.E. [It seem too late now to provide any grant in the current year. Grant, if the proposal is approved, may be provided in 1949-50 & the ... requirements in the year]

p15 cf

& for application on Salem intake due with Fr ... dy 20-2-49

the file may be circulated to H.M. (PH) and H.Fi. for orders.

MP 15/2/49

CEO 15.2.49

The Water Supply and Drainage Committee have drawn up after careful consideration, a list of priority, for municipal water-supply and drainage schemes, dividing the province into two circles - the northern and the southern. The Committee have drawn up this list taking into account the relative importance of each place from the public health point of view taking the province as a whole. As the Committee have pointed out, in para 70 of their report, they have been guided solely by relative needs as between place and place based on the intensity of water-borne epidemics, endemicity, partial and total scarcity, the industrial commercial and religious importance of the place, the incidence of malaria, filariasis and mosquito nuisance and so on. According to this list of priority, Cuddalore occupies the first place in the list of schemes to be improved in the

Southern circle. Mangalore occupies the first place in the list of schemes to be newly provided in the southern circle. This list has been approved by the Secretary, the Hon. the Minister for Public Health, and the Hon. the Minister for L.A. Orders, however, accepting this list of priority could not be issued immediately, because there was also the question of priority to be considered for the newly constituted municipalities, which are about 10 in number. The Chief Engineer has since drawn up a list for these schemes and it has been also approved. Just about the time, when orders were about to be issued, approving the list of priority, H.Pr. has ordered, that the priority list should be drawn up according to the dates from which municipalities began to levy their water and drainage taxes. It is now, for orders, as to whether the lists/drawn up by the water-supply and drainage committee and by the C.E. for the newly constituted municipalities should be approved or whether the priority should be settled in accordance with the dates of the levy of water and drainage taxes. If the latter course is approved, the priority for water supply schemes will be as shown in the statement at 'RR'. According to this statement, Mangalore will go down to the tenth place in the list of schemes to be newly provided and Cuddalore will go down to the 18th place in the list of schemes to be improved in the southern circle.

2. As for the immediate question at issue in this file, it is for orders, whether the Mangalore water-supply scheme should be treated as a 'New Service' and funds provided for the execution of infiltration gallary (estimated cost one lakh and two thousand) in advance of the preparation of plans and estimates for the main scheme, which is estimated to cost 48.41 lakhs.

The test for priority proposed by H.Pr. is based on the very sound principle that willingness to pay is the best indication of the need for the particular service. At the same time the

factor of willingness may be related to the factor of ability on one hand and the particular ideas of the Municipal Councils on the other. The Water Supply & Drainage Committee in fixing priority, have adjured Government that the recommendations, which have been very carefully made, should not be altered. By accepting this priority, Government will also be saved from being troubled by numerous local bodies each of which considers that its own claims deserve to be preferred.

It would appear that the W.S & Drainage Committee did take account of the date of taxation. The list at flag 'RR', according to the date of taxation, would show that there are differences of one to three years only between Mangalore and the 8 Towns above it, if Tellicherry is excluded. Tellicherry has been standing over for more than 40 years without any Scheme investigated even now. The remaining eight towns are small ones and probably less affected by water-borne diseases. The precedence therefore given to Mangalore in the Report of the Water Supply Drainage Committee may be recognized. In this connection, H.M. is aware that the Sanitary Engineer who has recently inspected the town has returned with alarming reports of the prevalence of filaria, the incidence being as high as 10 % of the population. It is suggested therefore that funds (Rs. 1,02,000/-) may be provided for execution of infiltration gallery as 'New Service' in advance of the preparation of plans and estimates for the main scheme.

In the linked file similarly, Cuddalore which has been given first place by the Water Supply & Drainage Committee may be taken up for improvement before the 17 towns which precede it on priority

determined according to the date of tax.

16/2/49

H.M. (P.H.)

H.Pr.

The priority list for municipal water-supply and drainage schemes has been fixed by the Water-supply and Drainage Committee after considering the relative needs between place and place based on the intensity of water-borne epidemics, partial and total scarcity of water-supply, the importance of the place, the incidence of malaria, filariasis and mosquito nuisance. Priority should not be fixed merely according to the dates from which municipalities began levying water-supply and drainage taxes ignoring other essential factors. The municipalities have been grouped by the committee under three different categories:

10 FEB 1949

List I - schemes to be newly provided
List II - existing schemes to be improved and
List III - schemes now under execution.

Each list has been divided into southern and northern circles. This priority list should stand as all the relevant factors have been taken into consideration in fixing it.

The Incidence of typhoid fever in Mangalore is very high. The city has become an endemic centre for filariasis also. There has been a long standing demand from the people of Mangalore for provision of protected water-supply. Preliminary investigation and re-investigation have been done several times in the past. The amount required for the execution of the infiltration gallery work at Mangalore may be sanctioned as a "new service".

Without planning we should 16/2
not sanction it. Unless we
definitely ~~know what~~ to follow
one policy there will always be the sanction
of the schemes according to whims and fancies
I want to avoid this. G.P.R
17/2

Please see the minutes on p. 18 ante.

For orders whether it may be presumed that H. Pr. has approved the priority list drawn up by the W. S. and S. Committee.

The file may be circulated to H M (P H) for perusal of the minutes of H Pr.

17.3.49
M(P.H).

Please see the D.O. from the C.M.C, Mangalore, at pp 301-2 c/ and the minutes of H.M.(P.H.) extracted above.

On Go. No. 777 P.H., dy 12.3.48, the Govt. sanctioned the preparation of plans and estimates for the Mangalore Ml. w.s. scheme. In the same Go, the Govt. ~~have~~ approved the proposal of the C.E. ~~that~~ to take up the construction of infiltration gallery for a length of 1025 feet in advance of the preparation of plans and estimates. In that connection, the financial position of the cl. was examined and it was seen that the cl. would be able to finance the scheme on the usual half-grant half-loan basis, if it raised the rate of waters and drainage tax from two p.c.p.a to eleven p.c.p.a. The cl. has agreed to increase the tax accordingly. pp 111-3 c/ q (F)

Estimated cost Rs 48.41 lakhs to instal

p 111 n/ q (F)

p 69 c/ q (P)

Recently, the C.E. suggested that a grant of Rs 5000 might be provided for the work in 1948-49. Finance agreed to the proposal, but as the proposal would commit Govt. to the payment of a grant in respect of the whole scheme (estimated cost p 15 c/

p 4 of Section of Interbelum

11671-4/48

Rs 48.41 lakhs finance Held that the proposal would have to be treated as a "New service" and the matter placed before the Standing Finance Committee and the Cabinet. When the file was circulated, HM(PH) and HM(Fin) minuted that the grant might be provided by observing the procedure indicated for very emergent cases of New schemes i.e after circulation to HM (Fin) and HR. HM(Fin) agreed to this suggestion. The minutes of HR in the matter are at pp 6, 7, 12 and 18 ante.

p 4 of Secretariat notes

p 6 ante

p 6 ante

DIO

Subsequently, the Sanitary Engineer was asked to submit a plan to implement the priority list drawn up by the W.S. and D. Committee for Ml. W.S. and D. Schemes. The question was also considered at a conference of HM (PH), the C.E., the D.P.H and the Sanit. Engineer held in the Sectt., on 21.2.49. Among other things it was decided at the conference that a five years plan should be drawn up and that the W.S. Schemes for Nandyal and Mangalore and that the W.S. improvements Scheme for Cuddalore and Vizagapatam should be taken up immediately. A plan has been drawn up accordingly. The question of approving it is under separate consideration.

p 27 c/f

Recently, the C.E. has since submitted plans and estimates amounting to Rs. 3,15,000 for the work of infiltration gallery and suction well, which forms the first stage of the work of the W.S. Scheme for the City. The plans and estimates have been referred to the Ml. Ch. Mangalore on 12.3.49 for its views and its reply is awaited.

The file may be circulated to HM(PH) with reference to his minutes on p 30 c/f.

18/3/49.

CEO
14/3/49

CE

5116/H1/48 (with linked file)

After H.M.(P.H.) and H.M.(Finance) had agreed that a grant may be provided for the Mangalore water-supply under the procedure for very emergent cases of new schemes, H.Pr. minuted at page 18 n.f. that the proposal should be part of a definite plan. A plan has since been prepared which accepting the priority recommended by the Water-supply and Drainage Committee gives Mangalore and Nandyal the first place in the new schemes and Cuddalore and Vizagapatam the first place in old schemes for improvement. In these circumstances H.Pr. may like to agree, particularly as the Chairman of the Municipality, Mr. L.C. Pais, M.L.A. has made it out in the letter at page 301 c.f. that his position in the Council has become very difficult on account of the delay in the introduction of the schemes.

May agree.
H.M.(P.H.) 19/3

16/3/49
H.Pr. Place the four schemes before the S.F.C.

G.P.R 21/3

21 MAR 1949

With reference to the minutes of H&R above, the position re: the four w.s. schemes in question, is noted on below:—

Vizagapatam w.s. improvements scheme.
The question of sanctioning the execution of the scheme and the Govt. committing themselves to the necessary grant and loan has been placed before the S.F.C. Orders of the S.F.C. have also been solicited to issue orders without reference to the Cabinet.

file sent to Finance

Mangalore M.w.s. scheme. This may also be placed before the S.F.C. and a similar procedure as in the case of Vizagapatam adopted. A draft note for the S.F.C. is submitted for approval.

Cuddalore w.s. improvements scheme. According to the five year plans recently submitted by the Sanitary Engineer, the Cuddalore w.s. improvements scheme

S 1167/41

is estimated to cost Rs. 9 lakhs. The preparation of plans and estimates has got to be sanctioned. Before this is sanctioned, the financial position of the dt has to be examined. This question may be pursued in the linked file I.

Nandyal w.s. scheme. On an examination of the financial position of the Hl. dt. Nandyal, it was seen that the dt. can finance the scheme estimated to cost Rs. 24.33 lakhs on the usual half-grant basis to instal and Rs 20,000 p.a to maintain, if the w. and d. Tax was levied in the rcty, at 10 p.c. p.a. With this levy, the total rate of property tax in the rcty, would be 25½ p.c p.a. L.A. stated that this rate cannot be considered unduly high at the present time. The Hl. dt. Nandyal, which was consulted in the matter has requested that it might be given a three-fourth grant. It has been decided that this question and the question of sanctioning the preparation of plans and estimates may be considered after a final decision has been taken on the question of liberalising the present policy of giving only half-grants to local bodies for w.s. and d. schemes. This latter question is lying over pending approval of the five years plan submitted by the S.E.I. The question of providing grants for the Nandyal Hl. w.s. scheme may be placed before the S.F.C., after a decision has been taken on the dt's request for a three fourth grant. This may be pursued in L.F.I.

The file may be circulated to H.M (P.H) and H.M (Finance), after acceptance of the draft note for the S.F.C. by the Finance Deptt.

Cuddalore Water-Supply Improvements:-

Investigation has been completed. We have to obtain the investigation report and order the preparation of plans and estimates. Only after obtaining these plans and estimates

A.E. A1

estimates we can place the matter before the Standing Finance Committee.

Nandyal Water-Supply Improvements:-

This is also in a similar stage as Cuddalore. The investigation has been done. Plans and Estimates have yet to be prepared. After plans and estimates are ready the matter will be placed before the Standing Finance Committee.

Vizagapatam Water-Supply Improvements:-

A note had been already placed before the S.F.C.

Municipal
Mangalore/Water-Supply Scheme:-

A note below prepared for the S.F.C. is for approval. Fin. may see it before circulation.

Scheme estimated to cost Rs. 48.41 lakhs to instal, if the rate of water and drainage tax levied in the Mcty was raised from two p.c.p.a to eleven p.c.p.a. The Council had agreed to raise the tax accordingly. The question of sanctioning the execution of the Scheme, the Govt committing themselves to a half-grant of Rs. 24.205 lakhs and a loan of a like amount, has been placed before the Standing Finance Committee and its orders are awaited.

The C.E. has since submitted detailed

p.1 cy — plans and estimates amounting to Rs. 3,15,000, in respect of the work of the construction of infiltration gallery and suction well which forms the first stage of execution of the Mangalore Mcl. W.S. Scheme. The Mcl. Mangalore which was consulted in the matter, has proposed to meet its share of cost from the accumulated amount in its W.S.D. fund. It has also requested Govt to give a half-grant. It is not necessary to examine the financial position of the Mcl. in view of 'X' above. However, before the detailed plans and estimates submitted by the C.E. are approved, the decision of the S.F.C. in the matter may be awaited.

pp 17-18 of 9 (M)

In G.O.204, P.H. dated 22-1-48 sanctioning Part II Scheme it was ordered that construction of new filter beds costing Rs.1,61,200/- might be taken up immediately. This was technically sanctioned and sent to the Suptg. Engr.

E18·H(1+1)

The C·E suggests the provision of a grant of Rs. 15,000 in the current year ~~budget~~ in respect of the Part II of the scheme of improvements to the Kakinada W. S. System.

In the B·E for 1947-48, a grant of Rs·40000 was provided for the purpose. No provision for grant for this work was made in the B·E. for 1948-49. In connection with the Part I estimates for 1949-50, the C·E did not suggest the provision of any grant for this work in the R·E. for 1948-49. The Commr., Kakinada Mcty, recently stated that the work was taken up for execution in the current year and that on demand from the Executive Engineer, P·W·D., Bowlaiswaram, a sum of Rs. 80,600 representing the Municipal share of the cost, had to be placed at his ~~disposal~~. In the circumstances, the CE has been

papers and pro-p

2. Mangalore Water Supply Scheme I Stage	50,000	5,000

pp 111-3 of (P) G.O.777, P.H. dated 12-3-48. Accorded sanction to the execution of a tentative length of infiltration gallery of 1020 ft. in advance of the preparation of plans and estimates and also the acquisition of lands. Necessary plans for land acquistion were sent to the Supdtg. Engr. Plans for ~~land acquisition~~ the infiltration gallery are under preparation in Sany. Engr.'s Office.

E&B. H(1+1)

The C.E. recommends the provision of a grant of Rs. 5,000 in the current year's budget for the Mangalore Pvt w.s. Scheme.

pp 111-3 of (P) In G.O. No. 777 P.H. dt 12.3.48, the Govt have sanctioned the preparation of plans and estimates for the Mangalore Pvt. w.s. Scheme. In the

p 112c of (P) same G.O. the Govt have approved the proposal of the C.E. to take up the construction of an infiltration gallery for a length of 1020 feet in advance of the preparation of plans and estimates for the Scheme.

Ordinarily the question of grant for w.s. schemes is considered as a Part II Scheme and that only after plans and estimates have been prepared and approved by the Govt. In this case sanction has been accorded to the execution of a length of 1020' in advance of the preparation of plans & estimates

para 2 on p 112c of (P) It is submitted in this connection that

p 112c of (P) in the G.O. mentioned above, the ability of the dl. to finance the scheme (estimated to cost Rs. 48.41 lakhs to instal) was examined; it was seen that the dl would on the half grant half loan basis be able to finance the scheme if it raised the w. and d. tax from 2 p.c p.a to 11 p.c p.a. The dl has agreed to increase the tax accordingly.

do

For orders whether a grant of Rs 5000 will be provided in the current year's budget, as suggested by the C.E.

A.E.E.

(p. A)

The proposal at 'A' on p 3 above may be agreed to in finance.

The grant involved though Rs 5000/- only now, commits the govt to the payment of a half grant in respect of the whole scheme costing Rs 48·41 lakhs. Even the cost of the restricted scheme now taken up apparently exceeds amounts to Rs 1 lakh. The proposal will therefore have to be treated as a 'New Service' and the matter placed before the S.R.C. and the Cabinet. A supplementary grant from the legislature will also have to be obtained in the course.

[< Rs. 5 lacs Engr has worked for Rs 12.5 o/.]

24/11/48

II. Schemes for which sanction of Government are awaited.

Avaniyapuram Water Supply Scheme ...	...		5,000

The Revised Estimate for Rs.1.77 lakhs for this work was submitted to Govt. in Chief Engineer's No.613, PWW/46-15 dated 30-6-48. If Govt. orders are received and funds provided, this work can be started immediately.

P.T.O.....

E+P H(H1)

The C.E suggests the provision of a grant of Rs 5,000/- in the current year in respect of the Avaniapuram water supply scheme.

Recently the C.E subd a Revised Estimate for 1.77 lakhs for this work; the P.Bd, Avaniapuram has been asked how it ~~is~~ proposes to finance the scheme. On the usual half grant basis the Bd has to find Rs 88,500/- as its share of the cost of the scheme. The Dt Bd and Ml Dt, Madura have already agreed to contribute Rs 12,236/- each towards the scheme. ~~The~~ A sum of Rs 4528/- is available with the P Bd. The Bd has addressed the Ml Dt and Dt Bd, Madura to increase their contribution from Rs 12,236/- to 40,000 each. After this question is settled the financial ability of the P.Bd should have to be examined by the Inspr. finally after it is examined the Revised Estimate can be sanctioned and the scheme taken up for execution. In the circumstances it is for orders whether ~~the provision for~~ a grant of Rs 5,000 may be provided for the scheme as suggested by the C.E need

Provision for grant suggested by CE

Rs 5,000

Trichy Water supply Improvements-II ... 5,000
Instalment of the II year programme.
Pump House and distribution system

Separate file

Plans and estimates for 11,34,500 for this scheme have been sent to Govt. for sanction in Chief Engineer's No.3176-PWW/44-3, dated 23-9-47. If it is sanctioned in time the grant applied for may be spent.

E&P. II (H-1)

The C.E. recommends the provision of a grant of Rs. 5,000 in the current year's ~~budget~~ in respect of the above mentioned work.

papers withdrawn

In 1939 the Supdg. Engineer (P.H.) submitted proposals for a comprehensive scheme of improvements to the Tiruchirapalli M.W.S. System, to be carried out in a period of four years. In view of the financial stringency, the Govt did not promise either a loan or a grant. However, as the M.C. was in a position to meet the cost of improvements to be carried out in the first two years, the Govt. agreed to the taking up of the first and second year programmes. It was decided that the question of grant might be considered after the period of financial stringency was over

paper not put up

The first year programme is being executed entirely from Municipal funds. Plans and estimates for the first instalment of the first year programme have been sanctioned. In connection with the sanction of the plans and estimates for the second instalment of the second year programme (estimated to cost Rs 11,34,500), the Commr. of the Mty stated that the C would require loans of Rs 4 lakhs, Rs 5 lakhs and Rs 2·2 lakhs in each of the three years commencing from 1949-50. The question of providing a loan for the M.C., Tiruchirapalli, for this work is being considered as a Part II scheme for 1949-50. The Finance dept have, in view of the difficulty

Separate file

anticipated in balancing the next year's budget, agreed to a loan of Rs 2 lakhs only in 1949-50. They have also stated that the loan should be sanctioned for a part only if absolutely necessary. The Finance Deptt have also stated in the file re: sanctioning of the plans and estimates for this scheme, that in the orders proposed to be issued it should be specified that no commitment should be made in respect of the scheme until the legislature have passed the Annual Estimate of Expenditure for 1949-50.

In the circumstances explained above ~~and in view of the fact that the improvement Schemes for the Division as well as Schemes being executed with the said grant from Govt.~~, it does not seem possible to make provision for a grant for the scheme as suggested by the CE. [It may also be submitted that ordinarily the question of grant should be considered as a Part II scheme].

8. Salur Water supply Scheme 3,000

As directed in G.O.878, P.H., d/-19-3-48 plans and estimates for the I Stage are under preparation in Sanitary Engr.'s Office. A sum of Rs.3,000/- can be expected to be spent this year if weather conditions permit to sink wells.

E+P.H(CH1)

The C.E recommends the provision of a grant of Rs 3,000/- in the current year for the Salur Water supply Scheme.

Govt put up

The preparation of plans and estimates for the Scheme was sanctioned in March 1948 and the C E was asked to send the plans and estimates for the I st Stage of the work for sanction in advance of the II Stage. The C E now states that above they are under preparation in the Sanitary Engineer's office. The C.E will scrutinise them and will send them to Govt for sanction. After they are received the ability of the Panchayat to finance the Scheme will have to be examined before the plans and estimates are sanctioned. Ordinarily the question of providing a grant for this work will have to be treated as a Part II Scheme as it is a new work.

In the circumstances, it does not seem ~~possible~~ that any grant can be provided for the scheme as suggested by the C.E

Provision for grant suggested by the CE Rs

9. Chicacole Water Supply Scheme ... 5,000

Memo.

In G.O.No.1007-H1/47-13 dated 13-2-48 orders were issued not to proceed with the revision of plans and estimates till the question of grant is settled. Meanwhile the Sanitary Engineer had revised the plans and estimate for a higher population and they need Chief Engineer's scrutiny. If Govt. now decide to sanction taking up the work, action will be taken to expedite its scrutiny and execution.

EE H(H.1).

The C.E. suggests the provision of a grant of Rs 5,000 in the current for the Chicacole Pel. W.S Scheme.

Separate file

In connection with the proposal of the CE. for the revision of estimates for the W.S scheme for the Chicacole Mply., to provide for an ultimate population of 25,000 at the rate of 15 gallons per head per day against the population of 20,000 and a supply of 10 gallons per head per day originally contemplated, the financial position of the Pel. cl. was examined. The F.A. deptt pointed out that it would be impossible for the cl. to finance the scheme (estimated to cost Rs 4,81,500) even on a three-fourth grant basis and to meet the running cost (Rs. 7,700/- per annum) unless the cl. raises the rate of taxation (which is now 2 1/4 p.c.p.a) by as much as 6 1/2 p.c.p.a, which that deptt. stated, was out of question. The Finance deptt pointed out that, in view of the unsatisfactory financial position of the Pel. cl. the cl. might be asked to defer the scheme until it is able to find ways and means to meet its share of expenditure.

Separate file

No final orders have been passed on the proposal of the CE regarding revision of the scheme; it had been decided to await the orders of the Govt on the recommendations of the Committee re: financing

of W. S. and D. Schemes.

In the circumstances, it does not seem necessary to make any provision for grant for the Chicacole W. S. Scheme in the current year. [It may be noted that the questions should ordinarily be considered as a Part II scheme, as this is a new work]

10. Virudhunagar Drainage Scheme 50,000 Nil.

This is scheduled to be taken pp this year according to 5 year plan. The plans and estimates are being prepared by the Sany. Engr. The Municipality was advised to proceed with land acquisition required ~~xx~~ for the sewage farm meeting the entire cost from its own funds at the first instance. An expenditure of Rs.50,000/- may be expected on this scheme during the current year though Govt. share of grant will be paid only after the scheme is taken up for execution.

E+P.H(Hi)

The plans and estimates for the drainage scheme of the Virudhunagar mcly are being prepared by the S.E. The Mcd has been advised by the S.E to proceed with the acquisition of lands required for the drainage scheme. He has also informed the commr., that the question of ~~loaning~~ giving a grant for the work can be taken up later on after the execution of the scheme is taken up. The C.E now states that as the scheme is scheduled to be taken up this year according to 5 year plans and an expenditure of Rs 50,000/- may be expected on this scheme during the current year. As the Mcd will have to bear the entire cost from its own funds in the first instance, no ~~grant need be provided~~ provision of grant is necessary for the work in the current year. The C.E. has not recommended any provision.

W. S. Scheme – Tenga

Dr Gyo-10

Govt. have sanctioned the Municipal W. S. Scheme on the half grant basis. As no provision has been made in BE 1949-50 for expenditure on the scheme Supplementary grant has to be obtained from Legislature. A draft explanatory note on the supplementary estimate is submitted for approval. Finance may see for acceptance.
